This **Credit Passport**® demonstrates the holder is a financially sound and reliable partner. Credit Passport is the only credit score based on real-time business bank account data from Open Banking, giving the clearest and most up to date view of a company's credit profile.

Credit Passport is used by business to indicate financial health, access credit, increase trade and accelerate growth.

The Credit Passport assessment demonstrates the ability of a company to perform its financial obligations in a rolling twelve months from the date of issue.
